DETAILED ACTION

Response to Amendment

1. The suspension of prosecution set forth in the Suspension of Action, Possible Interference mailed July 11, 2003 is hereby withdrawn.
2. The indication of allowed claims set forth in the Notice of Allowability mailed July 24, 2002 is withdrawn.
3. The finality of the action mailed June 18, 2002 is withdrawn.

Claim Rejections - 35 USC § 112

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 12-46 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In the claims it is not clear what is meant by "during formation of a concrete wall". This phrase appears to erroneously set forth a method. Also the claims appear to be prefaced as being drawn only to the sub combination of a supporting device. However, the body of the claims indicate that the support weldment plate and possibly the poured concrete are claimed together in combination with the supporting device. Until clarification is provided, the claims are treated as combination claims.

Allowable Subject Matter

Claims 12-46 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, second paragraph, set forth in this Office action and to include all of the limitations

Art Unit: 3635

of the base claim and any intervening claims. This is based on the assumption that the claims are combination claims.

The amendment filed September 22, 2003 will not be entered. It adds "new" claims 25-34. However, this application has claims 12-46 pending.
